MINISTRY OF SCIENCE FELLOWSHIPS

Ramón y Cajal and *Juan de la Cierva* programs

Guillermo Toral

IE University

October 2024

Agenda for the session

- Overview of the Ministry fellowship programs

Note that all the details I include here are based on information from the 2023 call – the 2024 call has not been issued yet but is likely to be very similar to last one.

Agenda for the session

- Overview of the Ministry fellowship programs

- Ramón y Cajal fellowships

Note that all the details I include here are based on information from the 2023 call – the 2024 call has not been issued yet but is likely to be very similar to last one.

Agenda for the session

- Overview of the Ministry fellowship programs

- Ramón y Cajal fellowships

- Juan de la Cierva fellowships

Note that all the details I include here are based on information from the 2023 call – the 2024 call has not been issued yet but is likely to be very similar to last one.

Agenda for the session

- Overview of the Ministry fellowship programs

- Ramón y Cajal fellowships

- Juan de la Cierva fellowships

- Key documents to prepare: 4-page CVA and 10-page report

Note that all the details I include here are based on information from the 2023 call – the 2024 call has not been issued yet but is likely to be very similar to last one.

Agenda for the session

- Overview of the Ministry fellowship programs

- Ramón y Cajal fellowships

- Juan de la Cierva fellowships

- Key documents to prepare: 4-page CVA and 10-page report

- Useful links, materials, and next steps

Note that all the details I include here are based on information from the 2023 call – the 2024 call has not been issued yet but is likely to be very similar to last one.

Overview of the Ministry of Science fellowship programs

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

- All **application materials and guidelines are in English** – although the call is only in Spanish as it's a legal document

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

- All **application materials and guidelines are in English** – although the call is only in Spanish as it's a legal document

- Applications are **evaluated by peer reviewers** hired by the Ministry

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

- All **application materials and guidelines are in English** – although the call is only in Spanish as it's a legal document

- Applications are **evaluated by peer reviewers** hired by the Ministry

- **The contract and the money go through a host institution**, which needs to pay a certain salary and has discretion to distribute the rest as they see fit

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

- All **application materials and guidelines are in English** – although the call is only in Spanish as it's a legal document

- Applications are **evaluated by peer reviewers** hired by the Ministry

- **The contract and the money go through a host institution**, which needs to pay a certain salary and has discretion to distribute the rest as they see fit

- **IE is new to these** (last year IE applied for the first time – submitted 3 RyC applications and obtained all 3)

Fellowships for attracting and retaining talent

- These fellowships are **given to individuals on their academic achievements and promise**; they are not project grants

- All **application materials and guidelines are in English** – although the call is only in Spanish as it's a legal document

- Applications are **evaluated by peer reviewers** hired by the Ministry

- **The contract and the money go through a host institution**, which needs to pay a certain salary and has discretion to distribute the rest as they see fit

- **IE is new to these** (last year IE applied for the first time – submitted 3 RyC applications and obtained all 3)

- **Relatively low-hanging fruit**: ~500 fellowships in each program (~30 in social sciences)

What these fellowships are (in)compatible with

- You **can have a RyC or JdC fellowship AND research grants**, including Ministry of Science grants

What these fellowships are (in)compatible with

- You **can have a RyC or JdC fellowship AND research grants**, including Ministry of Science grants

- But you cannot have **one of these fellowships and another contract** (e.g., Marie Curie, Talento, etc.). The labor contract of the fellows must make it explicit they are funded with this program.

What these fellowships are (in)compatible with

- You **can have a RyC or JdC fellowship AND research grants**, including Ministry of Science grants

- But you cannot have **one of these fellowships and another contract** (e.g., Marie Curie, Talento, etc.). The labor contract of the fellows must make it explicit they are funded with this program.

- You **cannot teach more than 100 hours a year**.

What these fellowships are (in)compatible with

  - RyC: 5 years, 50k research funds, 200k salary support

  - JdC: 2 years, 7k research funds, 64k salary support

Ramón y Cajal fellowships

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:
  - 50k in research funds for the fellow (managed by the university)

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:

    - 50k in research funds for the fellow (managed by the university)

    - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:

  - 50k in research funds for the fellow (managed by the university)

  - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

- It's technically a **3 + 2 fellowship**:

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:
  - 50k in research funds for the fellow (managed by the university)
  - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)
- It's technically a **3 + 2 fellowship**:
  - After 3 years there's a Ministry review of academic output (*Certificado R3*)

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:

  - 50k in research funds for the fellow (managed by the university)

  - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

- It's technically a **3 + 2 fellowship**:

  - After 3 years there's a Ministry review of academic output (*Certificado R3*)

  - If and when passing that review, the salary support goes up (from 37k to 46k)

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:

    - 50k in research funds for the fellow (managed by the university)

    - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

- It's technically a **3 + 2 fellowship**:

    - After 3 years there's a Ministry review of academic output (*Certificado R3*)

    - If and when passing that review, the salary support goes up (from 37k to 46k)

- **RyC contract and status are independent of tenure-track**:

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:
  - 50k in research funds for the fellow (managed by the university)
  - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

- It's technically a **3 + 2 fellowship**:
  - After 3 years there's a Ministry review of academic output (*Certificado R3*)
  - If and when passing that review, the salary support goes up (from 37k to 46k)

- **RyC contract and status are independent of tenure-track**:
  - Historically the Ministry gave institutions money to tenure RyC fellows, but now that is not the case

Ramón y Cajal: The basics

- **5-year fellowship providing ~ €251,000**:
  - 50k in research funds for the fellow (managed by the university)
  - 200k in salary support (in practice, part of this goes to overhead, part to 1 teaching buyout, part to salary)

- It's technically a **3 + 2 fellowship**:
  - After 3 years there's a Ministry review of academic output (*Certificado R3*)
  - If and when passing that review, the salary support goes up (from 37k to 46k)

- **RyC contract and status are independent of tenure-track**:
  - Historically the Ministry gave institutions money to tenure RyC fellows, but now that is not the case
  - Instead, the institution just needs to show it created a "permanent" position

Ramón y Cajal: The institution's side

- **Candidates apply independently** from institutions

Ramón y Cajal: The institution's side

- **Candidates apply independently** from institutions

- **Host institutions apply separately for a number of spots** they would be able to offer to RyC fellows

Ramón y Cajal: The institution's side

- **Candidates apply independently** from institutions

- **Host institutions apply separately for a number of spots** they would be able to offer to RyC fellows

- Ministry grants a number of RyC "spots" to each institution (last year IE got 12 spots)

Ramón y Cajal: The institution's side

- **Candidates apply independently** from institutions

- **Host institutions apply separately for a number of spots** they would be able to offer to RyC fellows

- Ministry grants a number of RyC "spots" to each institution (last year IE got 12 spots)

- When RyC fellowships are granted, candidates can potentially shop around until they decide what institution (of the ones making them an offer) they go to

Ramón y Cajal: The institution's side

- **Candidates apply independently** from institutions

- **Host institutions apply separately for a number of spots** they would be able to offer to RyC fellows

- Ministry grants a number of RyC "spots" to each institution (last year IE got 12 spots)

- When RyC fellowships are granted, candidates can potentially shop around until they decide what institution (of the ones making them an offer) they go to

  - Other institutions likely to offer the RyC minimum salary plus a small add-on of salary and/or research funds

Ramón y Cajal: Evaluation criteria

- Candidate's **scientific contributions**: 0-55 points

Ramón y Cajal: Evaluation criteria

- Candidate's **scientific contributions**: 0-55 points

- Candidate's **internationalization and mobility**: 0-20 points

Ramón y Cajal: Evaluation criteria

- Candidate's **scientific contributions**: 0-55 points

- Candidate's **internationalization and mobility**: 0-20 points

- Candidate's **independence and leadership**: 0-25

Juan de la Cierva fellowship

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

    - 7k in research funds for the fellow (managed by the university)

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

  - 7k in research funds for the fellow (managed by the university)

  - 65k in salary support

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

  - 7k in research funds for the fellow (managed by the university)

  - 65k in salary support

- **Differently from the RyC**:

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

  - 7k in research funds for the fellow (managed by the university)

  - 65k in salary support

- **Differently from the RyC**:

  - JdC candidates apply with the host institution

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

  - 7k in research funds for the fellow (managed by the university)

  - 65k in salary support

- **Differently from the RyC**:

  - JdC candidates apply with the host institution

  - JdC candidates need an academic supervisor, and they need to join a "team"

Juan de la Cierva: The basics

- **2-year fellowship providing ~ €72,000**:

  - 7k in research funds for the fellow (managed by the university)

  - 65k in salary support

- **Differently from the RyC**:

  - JdC candidates apply with the host institution

  - JdC candidates need an academic supervisor, and they need to join a "team"

  - JdC candidates are assessed partly on their own merits (CVA) and partly on those of their supervisor (supervisor's CVA) the team they'd join (report)

Juan de la Cierva: The institution's side

- **Candidates apply with a supervisor at the institution** and a report from the team they would join

Juan de la Cierva: The institution's side

- **Candidates apply with a supervisor at the institution** and a report from the team they would join

  - A given person can only show as supervisor for 1 applicant

Juan de la Cierva: The institution's side

- **Candidates apply with a supervisor at the institution** and a report from the team they would join

  - A given person can only show as supervisor for 1 applicant

- The institution submits, among other things:

- **Line of research to be developed** (high-level view of the research agenda)

- All in a **10-page document using 11-point font**

The individual report for the RyC: Some tips

- **Make your experience and achievements legible** to a wide range of audiences. Keep in mind evaluators may be international or Spanish.

The individual report for the RyC: Some tips

- **Make your experience and achievements legible** to a wide range of audiences. Keep in mind evaluators may be international or Spanish.

- **Explain things that may be obvious for us** (e.g., prestige of journals or institutions)

The individual report for the RyC: Some tips

- **Make your experience and achievements legible** to a wide range of audiences. Keep in mind evaluators may be international or Spanish.

- **Explain things that may be obvious for us** (e.g., prestige of journals or institutions)

- **Use the guidelines** to make sure you are providing details on everything they want to see

The individual report for the RyC: Some tips

- **Make your experience and achievements legible** to a wide range of audiences. Keep in mind evaluators may be international or Spanish.

- **Explain things that may be obvious for us** (e.g., prestige of journals or institutions)

- **Use the guidelines** to make sure you are providing details on everything they want to see

- **Make it easy for evaluators to find reasons to give you points on all items** they will evaluate you on (including things like dissemination of research results, contributions to society, open science practices)

The team report for the JdC: Structure

- **List of team members**, and whether team is formally recognized as a **research group** by the institution

The team report for the JdC: Structure

- **List of team members**, and whether team is formally recognized as a **research group** by the institution

- **Scientific contributions and contributions to society** (including dissemination efforts, collaborations outside academia)

The team report for the JdC: Structure

- **List of team members**, and whether team is formally recognized as a **research group** by the institution

- **Scientific contributions and contributions to society** (including dissemination efforts, collaborations outside academia)

- **List of "national" grants**, including PI, dates, and amounts.

- Email me for a **package with templates, guidelines, and my application materials** from last year

- You can look at the CV summary of successful RyC applicants from last year here

- Once the call is published, **the Agency will also post updated templates and guidelines** (although I don't expect them to change)

Some next steps

- If you don't have a **Spanish government electronic digital signature** and the secure PIN system **"cl@ve"**, start the process – it's annoying but you need it to submit an RyC application (some info here); not necessary for JdC

Some next steps

- If you don't have a **Spanish government electronic digital signature** and the secure PIN system **"cl@ve"**, start the process – it's annoying but you need it to submit an RyC application (some info here); not necessary for JdC

- **Email the Research Office** if you are planning on applying to one of these fellowships this year (as per their post on Workplace)

Some next steps
